## Welcome

Welcome back to all our dedicated [comfort zone] stockists. Well wasn't the beauty expo and our GLB beauty extravaganza amazingly uplifting. I just wanted to once again say a huge congratulations to Adore My Body My Beauty My Skin at Sutherland for winning the [comfort zone] award, to Cocoon Day Spa in South Australia for winning the [comfort zone] professional award and to Elouise Papadakas for winning the Australian [comfort zone] sales award where she was given an all expenses paid trip to Italy! An outstanding effort to all of you!

Michaela Senft, International [comfort zone] trainer demonstrating the Jade Stone facial

For those of you who may have missed out, we launched two new treatments, the Tranquillity Jade Stone Facial and the Tibetan Sound massage. All I can say is WOW!! The Tranquillity Jade Stone Facial is a unique combination of our nurturing hands, the deep relaxation bestowed from aromachology and the powerful detoxifying and healing qualities inherited from the Jade Stones. The result is an unforgettable experience of profound wellbeing, nurturing and calmness whilst offering oxygenation to the skin and bestowing luminosity and radiance. Inspired by the philosophy of Buddhism, the Tibetan Sound massage is for those how desire a true spa experience that will encourage a new energy and bestow vitality. This beautifully unique experience uses detoxifying hot stones, embracing hands, distressing essential oils and healing singing bowls to alleviate aches and pains whilst promoting a deep sense of wellbeing and relaxation. You must be one of the first to promote this new trend of wellbeing into your salon and spa in the current times where a little nurturing and sincere care goes a long way.

**Exceptional hydration & tone To skin**

**Skin is oxygenated & luminous**

# Body strategist+algae treatment

This powerful slimming and tonifying treatment combines the strength of algae and specific active ingredients for cellulite, to give an energy boost to the metabolism. The lipolysis increases, favouring a slimming action and the tissues become reoxygenated and remineralised, gaining compactness and tone. This 60min body treatment does not require a shower and or spa set up to be able to perform. The skin is extraordinarily luminous and the silhouette is visibly compact and smoothed.
